# LDRP-ITR GANDHINAGAR

Comprehensive Student & Admissions Guide

Courses • Fees • Seats • Admissions • Scholarships • Campus • Placements • Documents • Official Links

---

**Research edition:** 15 October 2026

Prepared from publicly available institute, university, Gujarat admission, fee-regulatory and scholarship sources. This guide distinguishes published facts from items that must be confirmed directly.

Important: no single public website contains literally every detail. This handbook consolidates the most useful publicly verifiable information and points to the official source for live notices, exact fee components, seat matrices and scholarship rules.

Official institute website: www.ldrp.ac.in

Campus: Near KH-5 Circle, Sector 15, Gandhinagar, Gujarat 382015 | Phone: 079-23241492 | Email: info@ldrp.ac.in

# 1. Executive overview

L.D.R.P. Institute of Technology & Research (LDRP-ITR) is a technical and management institute in Sector 15, Gandhinagar, Gujarat. Its official website describes it as a constituent institute of Kadi Sarva Vishwavidyalaya (KSV). The institute's published information covers undergraduate engineering, postgraduate engineering, MBA and MCA, alongside department-specific academic resources.

Use this guide as a working handbook, not as a substitute for a current admission notification. Course intakes, approved fees, eligibility, admission methods and scholarship limits can change by academic year.

| Topic | What this guide provides | What must be checked live |
|---|---|---|
| Courses | Published program families and branch list | Whether each course is active/intake-approved for 2026–27 |
| Fees | Published fee references and official fee portals | Final approved course-wise fee and annual fee components |
| Seats | Institute-published historical intakes and 2026–27 ACPC listing where available | Current round-wise seat matrix, category split and vacancies |
| Admissions | ACPC/ACPDC-style process overview and MCA admission notes | Current dates, merit rules, documents and round rules |
| Scholarships | Potential schemes and official portals | Eligibility, income ceiling, approved amount, deadlines and sanction |
| Placement | Officially listed placement assistance and partner names | Latest placement report, median/average, batch size and verified offers |
| Campus | Facilities described by the institute | Current hostel, transport, mess and extra charges |

Source basis: institute overview and notices; MCA department page; ACPC 2026–27 institute/course listing; Gujarat government scholarship pages; Fee Regulatory Committee (Technical) published fee orders.

Official institute source: LDRP-ITR home | About LDRP-ITR

# 2. Institute profile and identity

Full name: L.D.R.P. Institute of Technology & Research (LDRP-ITR).

Location: Near KH-5 Circle, Sector 15, Gandhinagar, Gujarat 382015.

University relationship: The institute describes itself as a constituent college of Kadi Sarva Vishwavidyalaya (KSV).

Established: The institute's published profile says it was established in 2005–06.

## Official contact details

| Item | Published information |
|---|---|
| Address | Near KH-5, Sector-15, Gandhinagar – 382015 |
| Main phone | 079-23241492 |
| Email | info@ldrp.ac.in |
| Website | https://www.ldrp.ac.in/ |
| MCA admission contact shown on MCA FAQ | ldrpmca_admission@ldrp.ac.in; 9274750098 (verify before use) |

Contact information can change. Use the current website's contact page or department page before sending personal documents or making a payment.

## Institute claims and campus facilities

- Institute pages describe boys' and girls' hostel facilities, transport, Wi-Fi/internet connectivity, library and placement assistance.
- The official profile refers to project/job placement assistance and lists multiple historical or general placement partner names.
- Facilities and partner lists are not guarantees that a particular service is currently available, that a company will recruit in the current year, or that a student will receive an offer.

Sources: Institute home/profile; About LDRP-ITR

# 3. Programs: complete high-level map

LDRP-ITR's official profile lists these broad academic groups. The current ACPC/FRC/department pages should be used to confirm whether a particular program is approved and accepting admissions in 2026–27.

| Level | Program group | Examples published by institute |
|---|---|---|
| Undergraduate | B.E. engineering | Computer Engineering, Information Technology, Civil, Mechanical, Electrical, Electronics & Communication, Automobile |
| Postgraduate engineering | M.E. | Computer Engineering, Civil Infrastructure, Electrical Power System, Mechanical Thermal, Mechanical Production, Mechanical Automobile |
| Management | MBA | MBA programme |
| Computer applications | MCA | MCA programme |
| Skill / short courses | Separate training offerings may be announced | Check current institute notices and skill-centre announcements |

Do not assume that every course shown on older pages is still offered with the same intake. Historical pages may retain old branch names or previous academic-year figures.

## How to verify an individual course

- Open the institute website and select the relevant department or course page.
- Check the current-year ACPC institute/course matrix for approved intake, tuition fee field, category allocation and admission route.
- Check the Fee Regulatory Committee (Technical) order for the applicable approved fee period.
- Ask the department for the current scheme/syllabus, duration, intake, and any additional institute charges.

# 4. Undergraduate engineering branches and intake

The institute's About Us page publishes a first-shift undergraduate intake table. A separate 2026–27 ACPC listing also includes LDRP-ITR and course-level entries. The two sources may not match perfectly because of updates, course labels, shifts or approval cycles.

| Branch | Institute profile intake (published) | Notes |
|---|---|---|
| Computer Engineering | 180 | Current ACPC listing has a separate 2026–27 intake entry; verify exact approved number. |
| Information Technology | 60 | Confirm current-year intake and any revised nomenclature. |
| Civil Engineering | 60 | Confirm current-year intake. |
| Mechanical Engineering | 60 | Confirm current-year intake. |
| Electrical Engineering | 60 | Confirm current-year intake. |
| Electronics & Communication Engineering | 60 | Confirm current-year intake. |
| Automobile Engineering | 30 | Check current-year approval and whether the branch is accepting new intake. |
| Total (profile table) | 510 | Historical/profile figure; not a substitute for current seat matrix. |

The 2026–27 ACPC engineering institute list identifies LDRP-ITR, Gandhinagar, and shows course-specific intake and fee data for several engineering branches. The current official matrix takes precedence over older institute pages.

Source: LDRP About Us; ACPC 2026–27 engineering institute list (PDF)

# 5. Postgraduate engineering, MBA and MCA

| Program | Published intake reference | Key verification |
|---|---|---|
| M.E. Computer Engineering | 18 | Check current-year ACPC/PG admission listing. |
| M.E. Civil Infrastructure Engineering | 18 | Check current-year admission listing. |
| M.E. Electrical Power System | 18 | Check current-year admission listing. |
| M.E. Mechanical – Thermal Engineering | 18 | Check current-year admission listing. |
| M.E. Mechanical – Production Engineering | 18 | Check current-year admission listing. |
| M.E. Mechanical – Automobile Engineering | 12 | Check current-year admission listing. |
| MBA | 60 (in institute profile) | Check current ACPC MBA intake and fee. |
| MCA | 60 (in institute profile) | Check current ACPC MCA intake and fee. |

The above figures come from the institute's published profile and should be treated as profile references rather than a guarantee of 2026–27 intake.

## Course pages

- LDRP-ITR About Us and intake table
- LDRP-ITR MCA department page
- ACPC eServices and institute-wise reports

# 6. MCA at LDRP-ITR: course and curriculum

The official MCA page describes a two-year postgraduate professional program. Its published syllabus includes core computing subjects, elective groups and an industry project. The site's curriculum page includes subjects such as Artificial Intelligence, Cyber Security & Forensic Science, Cloud Infrastructure & Services, Machine Learning and Internet of Things in Semester III, alongside electives.

## Examples of published MCA subjects

| Area | Examples on institute curriculum page |
|---|---|
| AI and data | Artificial Intelligence; Machine Learning |
| Security | Cyber Security & Forensic Science; Information & Network Security |
| Cloud / systems | Cloud Infrastructure & Services; Heterogeneous Networks |
| Networking | Wireless Sensor Networks; Network electives |
| Software quality | Software Testing & Quality Assurance |
| Web / digital | Advanced Web Development Technologies; Digital Marketing |
| Emerging technology | Blockchain Technology; Internet of Things |
| Practical learning | Mini projects and Industry Project |

Elective availability can depend on the syllabus version and university implementation. The list above reflects examples on the published MCA page, not a promise that all electives will run in every batch.

Official curriculum: MCA page

# 7. MCA eligibility, selection and application

The MCA FAQ on LDRP's website says selection is based on the CMAT examination score for the relevant academic year and minimum graduation marks, through ACPC. The same page says that vacant seats may be filled by inviting applications, subject to applicable rules. Since admission policies can change, verify the 2026–27 ACPC brochure before acting.

## Practical application checklist

- Read the current ACPC MCA admission advertisement and information booklet.
- Check eligibility, accepted entrance exam, graduation subject/marks rules and any bridge/prerequisite requirements.
- Register on the official ACPC portal within the published dates.
- Upload accurate documents and check name, category, income and academic details.
- Complete choice filling carefully; review institute, course, category and fee before locking choices.
- After allotment, follow payment, reporting and document-verification instructions exactly.
- If seats are vacant and the institute advertises direct applications, confirm the process is permitted by the current admission rules before applying.

Official links: ACPC portal | LDRP MCA page / FAQ

# 8. Fees: how to read the official figures

Fees can vary by program and academic year. Use the Fee Regulatory Committee (Technical) order and the current admission matrix, not third-party aggregator estimates.

| Program / reference | Published figure | Interpretation |
|---|---|---|
| MCA — institute FAQ | ■99,000 per year for 2025 admissions | The page states the figure is subject to change for 2026 admissions; confirm current amount. |
| B.E./B.Tech — FRC fee order | ■1,19,000; ■1,21,000; ■1,23,000; ■1,24,950 appear as period-specific figures in the referenced order | Use the applicable academic-year column and current FRC order; do not apply one figure to every year or branch. |
| B.E. 2026–27 — ACPC matrix | Course-wise tuition fee field is published in the current matrix | Confirm branch-specific value and whether it is per year/semester as described by the source. |
| Hostel, mess, transport, deposits | Not assumed included in tuition | Obtain current written schedule from institute/hostel office. |

The 2025 MCA amount is a published reference only. The current 2026–27 MCA fee must be confirmed from the current ACPC/FRC listing or a written fee notice. Never infer a final payable amount from a rounded headline fee.

Sources: LDRP MCA FAQ; FRC Technical website; ACPC eServices

# 9. Fees: exact breakdown to request

For budgeting and scholarship applications, ask LDRP for a dated official fee statement that separates every charge. A total annual figure is not enough when a portal asks for specific components.

| Fee component | What to ask the institute to confirm |
|---|---|
| Tuition fee | Approved tuition for the exact course, batch and academic year. |
| Admission / registration | One-time or annual admission and registration charges. |
| Examination fee | University/examination charges and whether billed separately. |
| Miscellaneous / student activity | Itemized institute charges and whether mandatory. |
| Caution deposit | Refundable or non-refundable; refund conditions and timing. |
| Hostel | Room charge, deposits, maintenance, electricity and other fees. |
| Mess | Meal-plan cost, payment frequency and refund/opt-out rules. |
| Transport | Route-wise or semester-wise charge, if used. |
| Other compulsory charges | Insurance, ID card, lab, library or university fees, if applicable. |
| Payment schedule | Due dates, late fees, accepted methods and receipt format. |

For any scholarship form that asks for annual Admission, Tuition, Miscellaneous and Exam fees, enter only the exact amounts supported by the official receipt/fee statement. Do not divide or estimate a combined total unless the scheme explicitly instructs you to do so.

Useful evidence to save: fee circular, official receipt, online payment confirmation, bank transaction reference, and signed/issued fee breakup.

# 10. Seats, categories and cutoffs

Seat availability changes by course, category and round. An institute's sanctioned intake is not the same as the number of seats available to a particular candidate at a particular stage.

## Understand these terms

| Term | Meaning |
|---|---|
| Sanctioned intake | Approved total intake for a course and academic year. |
| Government seats | Seats allocated through the centralized admission process under the applicable rules. |
| TFWS | Tuition Fee Waiver Scheme seats, subject to the official eligibility and allotment rules. |
| Category allocation | Seat allocation for categories such as SC, ST, SEBC, EWS and other applicable groups, as defined in the official matrix. |
| Vacant seats | Seats remaining after a particular round/reporting stage; not necessarily available in every category. |
| Closing rank / cutoff | Last admitted rank for a defined course, category, quota and round. It is not a universal cutoff. |

## How to find a useful cutoff

- Use the official ACPC round-specific closing-rank or allotment report.
- Match the exact course, category, admission route and round.
- Compare several years only as a rough planning aid; intake and applicant preferences change.
- Do not treat an institute-wide rank or a different course's cutoff as your course cutoff.

Official reports: ACPC eServices / institute-wise allotment and cutoffs

# 11. Scholarships: overview and realistic expectations

Scholarship eligibility is scheme-specific. Category, family income, course, institute type, academic performance, domicile, attendance, previous aid and application timing may all matter. A student should not assume that a scholarship reimburses the full tuition fee.

For a student in the SEBC category with a family income certificate, the relevant starting point is the current Gujarat government scholarship portal and the Director, Developing Castes Welfare (DDCW) scheme list. Eligibility and amount must be checked for the exact scheme and year.

| Potential route | Who should investigate it | What determines the award |
|---|---|---|
| Post-SSC / post-matric support for SEBC | Eligible SEBC students pursuing approved post-secondary study | Current scheme rules, income limit, course group, approved fee and other conditions. |
| Technical / professional course assistance | Students in eligible technical/professional courses | Specific scheme notification and whether LDRP/course qualifies. |
| MYSY (Mukhyamantri Yuva Swavalamban Yojana) | Students meeting the current scheme's marks, income and course rules | Current eligibility and required evidence on the official portal. |
| CMSS (Chief Minister Scholarship Scheme) | Students meeting current course and academic criteria | Current portal eligibility, passing year, admission year and course mapping. |
| National Scholarship Portal schemes | Students matching a listed central scheme | Scheme-specific category, income, institution and course requirements. |
| Institute merit/means assistance | Students asking LDRP student office about internal aid | Current availability, budget, selection criteria and required application. |

These are investigation routes, not a guarantee of eligibility or payment.

Official sources: DDCW educational schemes; Gujarat scholarships portal; National Scholarship Portal

# 12. Scholarship application: documents checklist

- Current caste/category certificate, where required by the scheme.
- Valid family income certificate for the scheme’s accepted period.
- Student Aadhaar details and bank account details as required by the official portal; never share them with unofficial agents.
- Admission letter or allotment letter showing course and institution.
- Current fee receipt and official itemized fee statement.
- Previous qualifying exam marksheets and current academic record.
- Bonafide/student certificate and course duration, if requested.
- Domicile/residence evidence, if required.
- Bank passbook/cancelled cheque or verified account proof, if requested.
- Hostel certificate or other scheme-specific evidence, if relevant.
- Previous scholarship details/renewal record, where applicable.
- Application acknowledgement, reference number and any correction notices.

## Before submitting

- Read the current scheme guideline, not only a social-media post.
- Match the academic year and fresh/renewal status.
- Ensure name, date of birth, category, income and bank information match supporting documents.
- Keep PDF copies and screenshots of successful submission.
- Monitor portal status and respond to objections before the deadline.

Do not send Aadhaar, bank details or caste/income documents to unknown WhatsApp numbers. Use the official portal or a verified institute scholarship office.

# 13. Scholarship portals and scheme navigation

| Portal / authority | What it is useful for | Official link |
|---|---|---|
| Gujarat DDCW | SEBC and other developing-caste educational schemes | https://sje.gujarat.gov.in/ddcw/Educational?lang=english |
| Gujarat scholarship portal | Gujarat state scholarship application routes and scheme information | https://scholarships.gujarat.gov.in/ |
| MYSY | Current eligibility, documents and applications | https://mysy.guj.nic.in/ |
| National Scholarship Portal | Central and participating state/agency schemes | https://scholarships.gov.in/ |
| ACPC | Professional admission notices, seat matrices, allotment reports | https://gujacpc.admissions.nic.in/ |
| FRC Technical | Approved fee orders for technical institutions | https://frctech.ac.in/ |
| LDRP-ITR notices | Institute-specific notices and document requirements | https://www.ldrp.ac.in/student-corner/index.html |

Portal pages and links may be reorganized. If a link changes, start from the department’s main official website rather than trusting a third-party mirror.

## How to estimate your likely scholarship

First identify the exact scheme. Next confirm whether MCA is an eligible course group and whether the institute is eligible. Then check the income ceiling and academic requirements. Finally, use the scheme’s published rate table and the institute’s official fee breakup. Do not estimate reimbursement by multiplying tuition by a guessed percentage.

# 14. Admissions timeline and checklist

Admission schedules vary by course and year. The following is a planning sequence, not a statement of official 2026–27 dates.

| Stage | Action | Evidence to keep |
|---|---|---|
| Before applications | Read eligibility, entrance exam rules, course and fee notice | Saved official brochure |
| Registration | Create account and enter details carefully | Application number and payment receipt |
| Documents | Upload marksheets, category/income certificates and requested evidence | Uploaded files and verification status |
| Merit / rank | Check provisional and final merit information | Rank/merit record |
| Choice filling | Prioritize courses/institutes according to preference and affordability | Locked choice list |
| Allotment | Read course, category, fee and reporting instructions | Allotment letter |
| Fee payment | Pay through official channel within deadline | Receipt and transaction reference |
| Reporting | Complete verification and enrollment | Acknowledgement/bonafide |
| Scholarship | Apply separately if eligible | Scholarship application ID |
| Renewal | Track yearly renewal and academic conditions | Renewal acknowledgement |

Official portals: ACPC; LDRP student notice board

# 15. Required documents: admission and enrollment

| Document | Common use | Important note |
|---|---|---|
| 10th marksheet/certificate | Identity/date of birth and academic history | Names and dates should be consistent. |
| 12th marksheet/certificate | Qualifying record where applicable | Course-specific requirements differ. |
| Graduation marksheets and degree/provisional certificate | MCA/MBA/PG admission | Submit all semesters or consolidated record as required. |
| Entrance exam score / rank | Where required by current rules | Use the exam and year specified in the brochure. |
| School leaving/transfer certificate | Enrollment where required | Ask for the exact format. |
| Category certificate | Reserved-category claims | Must be valid and match current rules. |
| Income certificate | Scholarship or fee assistance | Validity period and issuing authority matter. |
| Domicile/residence proof | Where required | Follow the scheme/admission rules. |
| Photographs and signature | Application/student record | Follow portal file size and format. |
| Aadhaar and bank proof | DBT/scholarship where required | Use secure official portals. |
| Fee payment receipt | Admission proof/scholarship | Keep the receipt and transaction number. |

This is a general preparation list. The official course-specific notice overrides it and may require additional or different documents.

# 16. Tuition Fee Waiver Scheme and other concessions

TFWS and scholarships are not the same thing. TFWS is an admission-seat/tuition-fee waiver mechanism governed by current rules; scholarships are financial assistance schemes that may be applied for separately. The student must meet the applicable eligibility and process requirements.

## Before relying on TFWS or a concession

- Confirm that the course and institute have TFWS seats in the current official matrix.
- Check the current family-income limit and required proof.
- Confirm which fee components are waived and which remain payable.
- Check whether the seat must be selected during centralized choice filling.
- Do not assume that a TFWS seat can be obtained after ordinary allotment or that it covers hostel, mess, exam or miscellaneous charges.

## Ask the institute/ACPC

- How many TFWS seats are approved for the exact course this year?
- What is the current eligibility and income certificate format?
- Which fee components remain payable?
- Is the concession available for MCA/MBA as well as engineering, or only for specific courses?

Use the current ACPC brochure and course matrix; the existence of TFWS seats in one engineering branch does not prove availability for every program.

# 17. Campus facilities and living costs

LDRP's official profile describes hostel facilities for boys and girls, transport, a library, internet/Wi-Fi and campus support facilities. The actual availability, room allocation and price for a particular student must be confirmed with the institute.

| Cost area | Questions to ask |
|---|---|
| Hostel | Current annual/semester fee, room type, deposit, maintenance and refund terms. |
| Mess | Monthly/semester cost, meal plan, holidays and opt-out/refund policy. |
| Transport | Routes, pickup points, timing, fee and whether the service operates for the student's timetable. |
| Books/materials | Department-specific books, lab materials, printing and project expenses. |
| Laptop/software | Minimum specification and any licensed software students must access. |
| Exams/university | Separate exam fees, revaluation and transcript charges. |
| Personal expenses | Commute, mobile data, meals, printing and emergency buffer. |

## Budgeting method

Make a year-wise budget: tuition + university/admission/exam charges + hostel/mess/transport + books/equipment + personal expenses. Subtract only scholarships or concessions that have been formally sanctioned. Do not count a pending scholarship as guaranteed income.

# 18. Placements and career outcomes

The institute’s public profile describes placement assistance and lists examples of organizations that have appeared as placement partners in its published material. A historical/general partner list does not establish current-year participation, placement count or salary outcomes.

## Questions to ask for a reliable placement picture

- How many students were eligible for placements and how many were placed in the latest completed batch?
- What are median, average and highest CTC, and how are they calculated?
- Are figures for all programs combined or separately for MCA, MBA and each engineering branch?
- How many offers are full-time jobs, internships, multiple offers to one student, or off-campus outcomes?
- What are the job roles, locations and eligibility criteria?
- Which employers visited in the most recent completed placement season?
- Can the department share an official placement report or annual report?

## For MCA / computing students

Build a portfolio that demonstrates practical ability: one substantial project, version-controlled code, database fundamentals, problem solving, API development, testing, deployment and communication. Do not make career decisions based only on a broad salary range published in an FAQ.

Official starting point: LDRP-ITR website

# 19. Internship, projects and skills

The MCA curriculum page includes mini projects and an industry project. Students should confirm the current project rules, internship duration, assessment criteria and whether the institute assigns projects or students must secure an external placement.

## Suggested project-readiness checklist

- Define the problem, target user and measurable objective.
- Use Git with a readable README and setup instructions.
- Document architecture, database schema, APIs and environment variables.
- Keep secrets out of source control; use environment variables.
- Write test cases and document known limitations.
- Prepare a short demo, screenshots and a concise report.
- Get written confirmation of industry mentor, deliverables and assessment expectations where applicable.

## Skills aligned with published curriculum themes

- Programming and data structures
- Database design and SQL
- Web development and API integration
- Software testing and quality assurance
- AI / machine learning fundamentals
- Cloud infrastructure and deployment
- Cybersecurity and networking fundamentals
- Teamwork, documentation and presentation

These are learning suggestions, not a statement that the institute guarantees instruction in every current tool or platform.

# 20. Notices, syllabus and academic resources

| Resource | Use | Link |
|---|---|---|
| Student Notice Board | Admission inquiries, scholarship/document notices, current announcements | https://www.ldrp.ac.in/student-corner/index.html |
| MCA page | MCA syllabus/curriculum and admission FAQ | https://www.ldrp.ac.in/mca/index.html |
| B.E. first-year NEP page | Published scheme for 2025–26 curriculum | https://www.ldrp.ac.in/first-year-nep-effect-academic-year-2025-26/index.html |
| B.E. CE/IT NEP page | Published CE/IT scheme information | https://ldrp.ac.in/be-ce-it-nep/index.html |
| ACPC eServices | Allotment, vacancy, rank/cutoff and seat reports | https://gujacpc.admissions.nic.in/document-category/eservices/ |
| KSV University | University-level academic and administrative information | https://ksvuniversity.org.in/ |

Check the scheme applicable to your own batch. A syllabus marked 2025–26 or 2026–27 may differ from the scheme used by a student admitted earlier.

# 21. Fees and scholarships: common mistakes

- Using a previous academic year’s fee as if it were the current fee.
- Treating a total fee as the tuition fee when a form asks for separate components.
- Assuming a scholarship covers the full annual tuition amount.
- Using an income certificate outside the scheme’s validity period.
- Confusing the sanctioned intake with the seats available in a particular round/category.
- Assuming a course shown on an older webpage is open for admission this year.
- Believing a placement-partner list guarantees an interview or job offer.
- Paying a third-party agent who claims to guarantee admission or scholarship approval.
- Submitting mismatched name, category, income or bank information.
- Missing an objection/correction window after submitting a scholarship application.

Safest practice: keep the official circular, fee statement, application ID and payment receipt in one folder, and verify all uncertain details with the responsible office.

# 22. Official contacts and escalation route

| Question | First contact / source |
|---|---|
| Course active, current intake, curriculum | LDRP department page and institute office |
| Current tuition fee | FRC Technical + ACPC course matrix + written institute fee statement |
| Admission eligibility / merit / round | ACPC official portal and current admission brochure |
| MCA-specific details | LDRP MCA department; verify contact on current official page |
| Scholarship eligibility / portal issue | Relevant Gujarat department/official scholarship helpdesk |
| Fee receipt / fee components | Institute accounts office; request official itemized statement |
| Hostel / mess / transport | Institute facility office; request current fee circular |
| Placement statistics | Training and Placement Cell; request latest batch report |

Main institute contact published online: 079-23241492 and info@ldrp.ac.in. Always verify contact details on the current official website before sharing documents.

Official site: https://www.ldrp.ac.in/

# 23. Direct official source directory

| Source | Why it matters | URL |
|---|---|---|
| LDRP-ITR home | Institute notices, departments and contact | https://www.ldrp.ac.in/ |
| LDRP About Us | Institute description and published intake table | https://ldrp.ac.in/about-us/index.html |
| LDRP MCA | Curriculum and MCA FAQ | https://www.ldrp.ac.in/mca/index.html |
| LDRP Student Notice Board | Student notices and document requirements | https://www.ldrp.ac.in/student-corner/index.html |
| ACPC Gujarat | Admission rules, merit, allotment and reports | https://gujacpc.admissions.nic.in/ |
| ACPC eServices | Institute-wise seat/allotment/cutoff reports | https://gujacpc.admissions.nic.in/document-category/eservices/ |
| FRC Technical | Approved technical-course fee orders | https://frctech.ac.in/ |
| Gujarat DDCW | Educational schemes including SEBC-related routes | https://sje.gujarat.gov.in/ddcw/Educational?lang=english |
| Gujarat scholarships | State scholarship information/application routes | https://scholarships.gujarat.gov.in/ |
| MYSY | Merit-cum-means scholarship information | https://mysy.guj.nic.in/ |
| National Scholarship Portal | Central scholarship schemes | https://scholarships.gov.in/ |
| KSV University | University-level academic information | https://ksvuniversity.org.in/ |

Use the original government or institute domain wherever possible. Search-result snippets are useful for discovery but are not a replacement for the full current notice.

# 24. Questions to send LDRP-ITR

Copy and send this checklist to the institute office. Ask for written answers or official PDFs so the information can be used for budgeting and scholarship applications.

- What are all programs accepting admissions in academic year 2026–27, with current approved intake for each course?
- What is the approved annual fee for each course, and can you provide the official itemized fee breakup?
- For MCA/MBA, what is the current fee and intake, and which entrance/merit rules apply this year?
- What are the hostel, mess and transport charges, including deposits and refund terms?
- Which institute-level merit/means scholarships or fee concessions are active this year? Please share eligibility, amount, deadline and application form.
- Which government scholarship schemes have LDRP students used for this course, and what exact fee components are eligible?
- Can the accounts office issue a signed fee statement showing admission, tuition, miscellaneous and examination charges separately?
- What is the latest completed-batch placement report for the exact program, including eligible students, placed students, median CTC and recruiters?
- Where are current syllabus, academic calendar, exam rules and student handbooks published?
- What are the official payment methods and how can a student verify a payment receipt?

Suggested email subject: Request for official 2026–27 course, fee, intake, scholarship and placement information.

Send only the minimum personal information necessary. Do not include Aadhaar number or bank account details in a general inquiry email.

# 25. Final verification checklist and limitations

Before making a financial or admission decision, verify the following from current official sources:

- Course and branch are open for the intended academic year.
- Current approved intake and seat matrix match the exact course.
- Current fee is confirmed in writing and matches the correct year/fee order.
- Tuition, admission, exam and miscellaneous amounts are separated where needed.
- Admission eligibility, entrance exam and deadline are confirmed in the current brochure.
- Scholarship scheme accepts the course/institute and the applicant meets every rule.
- Scholarship amount is based on an official rate table or sanction, not an estimate.
- Hostel/mess/transport are budgeted separately if applicable.
- Placement claims are supported by a recent report for the exact program.
- All URLs and contact details have been checked immediately before use.

Scope limitation: this handbook is a research-based compilation of public information available during preparation. It cannot include private internal documents, every social-media post, unpublished offers, or all information on the internet. Public information can be outdated or inconsistent. Where current data was not fully verified, the guide explicitly tells the reader to confirm it instead of inventing a number.

Prepared: 15 October 2026 | Focus: LDRP Institute of Technology & Research, Gandhinagar | Intended use: student research and planning, not legal, financial or admission approval.

Freshness note: online pages may be updated without notice. A fee figure or intake copied from a historical page is included as a dated reference and should not be used as a current final value without cross-checking.

# Appendix B. Personal planning worksheet

Use this worksheet to record verified figures for your own program.

| Item | Verified value / note | Source/date |
|---|---|---|
| Program and specialization | _____ | _____ |
| Admission year | _____ | _____ |
| Approved intake | _____ | _____ |
| Category / admission route | _____ | _____ |
| Tuition fee | ₹ _____ | _____ |
| Admission / registration fee | ₹ _____ | _____ |
| Exam fee | ₹ _____ | _____ |
| Miscellaneous fee | ₹ _____ | _____ |
| Hostel + deposit | ₹ _____ | _____ |
| Mess | ₹ _____ | _____ |
| Transport | ₹ _____ | _____ |
| Scholarship scheme | _____ | _____ |
| Scholarship application ID | _____ | _____ |
| Sanctioned amount (only after approval) | ₹ _____ | _____ |
| Final net cost (after confirmed aid) | ₹ _____ | _____ |

Calculate net cost only after separating all compulsory costs and confirmed assistance. Pending scholarship applications should be treated as uncertain until formally sanctioned.
